

# Computer Specs

**Model:** Dell Optiplex 5040

**Operating System:** Windows 10 Pro

**Processor:** Intel Core i5 6500 3.2Ghz

**RAM:** 8GB

**Hard Drive:** 250GB SSD Hard Drive

**Disk Drive:** CD-R/RW, DVD-R/RW (CD and DVD Burning Capable)

**Office Software:** OpenOffice (Compatible with Microsoft Word, Excel, and PowerPoint)

**Security Software:** Integrated Microsoft Defender

**Browser Software:** Firefox, Google Chrome, Edge

**Notes:** All available updates applied (at the time of setup). Computer should work well for word processing, email, internet browsing, and student use.

**Other Notes:** This is not a fast computer, but it does work as designed. The speed is sufficient for email, word processing, and web browsing, but will be reduced if other applications are installed.
